Brethren Y.P.S. Entertained the United Church Y.P.S.

On Friday evening last the home of Mr. and Mrs. Wilber Brubaker was the scene of joyful hilarity when the members of the Brethren Y. P. Society were hosts to the United Church Y. P. Society and other young folks of the community. The entire assembly were divided into four groups, led by Paul Irwin, Carol Christenson, Isabelle Mackie, Harry McCullough and keen was the rivalry in the competitive games. At 11:30 a very sumptuous supper of sandwiches, ice-cream and cake was served, much to the enjoyment of all. At the conclusion of the supper great appreciation was shown to Mr. and Mrs. Brubaker when all joined in singing "For They Are Jolly Good Fellows".

Around the Tee

Square Draw Standing to Date

First Competition

First division—Jack Beagle winner, goes into semi-finals.

Second division—Chrestenson winner, goes into semi-finals.

Third division—Mrs. Saunders and J. Large are tied and will have to play off the tie to decide the winner.

Fourth division—Lewendon winner, goes into semi-finals.

Second Competition

The Second Square Draw Competition is well under way, but it is too early to make any forecasts on it.

McHugh Wins Button Game

Although the resulting count of each end was very small in Friday night's button game, there were a goodly number of rocks in the house at each end. The shot rock was generally well guarded. The most remarkable end being the seventh. The defenders had four rocks in the house, and all were very well guarded by the rocks of both rinks laying in front of the house. But there was one very narrow port between a double row of guards off to the left. The challenging skip, Jack McHugh, curled his last rock through this narrow port, and got a good sized bite of the button to count one, and thereby drawing a round of applause from the spectators.

The following is the score by ends for this game:

	McHugh	Hales
0	0	1
1	1	0
1	2	0
1	3	0
1	4	0
1	5	0
1	6	0
1	7	0
0	7	1
2	9	0

This is quite an unusual way of scoring, McHugh has an unbroken string of ones for seven ends.

Only a fool will pay twice for the same experience.

Hockey Notes

Meadowbrook 6—Arrowwood 5

A small crowd of fans were on hand last Saturday evening to witness the hockey game between Meadowbrook and the locals. Norton scored early in the first period for Arrowwood but Meadowbrook gathered in four goals in short order to have an early lead. In the third period Arrowwood put five forwards on the offensive and in four minutes four goals were scored. Meadowbrook scored twice in the final frame to win 6-5.

Roberts, the regular goalie, was away and McKinley guarded the net for Arrowwood.

Red Cross 1 - Arrowwood 1

Monday evening the locals returned a game with Red Cross and after 10 minutes overtime the game remained a draw. The first period opened slow and neither team were able to score. Red Cross were

first to score in the second period and Beagle and McCullough evened up for Arrowwood. The third period was fast and penalties were numerous but minor. Chisholm was far outstanding in the third period and in overtime but was robbed on several occasions of goal.

Arrowwood—Roberts, Hornung, E. Mason, Beagle, McCullough, Norton, F. Mason, Chisholm, McLeod.

The wise man has his doubts, but only the fool is positive.

Ladies' Guild

Entertained by Mrs. R. Fonger

Mrs. W. R. Fonger entertained the Ladies' Guild on Thursday, Feb. 11. Devotionals were led by Mrs. Kemper. Miss Le Beau gave several delightful readings. Rehearsals are in progress for a play entitled "Clubbing our Husbands." The play will be presented by members of the Guild under direction of Miss Le Beau. Report of the February home cooking sale was quite gratifying. The next home cooking sale, under chairmanship of Mrs. C. G. Taylor and Mrs. R. H. Bishop, will be March 5th. Several former members signed the roll call. Delicious refreshments were served by the hostess.

Pianoforte Class Work Demonstration

A number of mothers attended the demonstration of music by the groups under Mrs. Coleman of Milo at the school on Tuesday afternoon. Very satisfactory progress is being made by the pupils and the class criticism seemed to encourage the children to do their best. Mrs. Coleman also has private classes in piano and vocal culture.

Following are the pupils taking part:

CLASS I

Phyllis Cochran

H. M. Kerr to Head Calgary Firm

We saw with pleasure the picture of our former citizen H. M. Kerr in one of last week's issue of the Herald, and we are glad to hear of his promotion.

Last July our village suffered in the removal of the Traxlers but we were pleased indeed to welcome the Kerrs. Now after a brief stay of eight months they too, are called upon to leave us. During their short residence they have made many warm friends, Mrs. Kerr especially taking a very active part in all the community activities.

While we are sorry to lose them and we rejoice in the new opportunity that is opened up may the firm Adam and Co. prosper under the new manager and may both Mr. and Mrs. Kerr find happiness and prosperity in the days to come.

Keith Cochran.

Mary Weins.

Kathleen Thompson,

Charlotte Kelly.

CLASS II

Dorothy Hesketh

Grace Board

Raymond Lewendon

Norma Pinkerton

In Class one Phyllis Cochran was awarded first prize and in Class Two Dorothy Hesketh won first and Grace Board won second prize.

N. J. Lord Has Narrow Escape While In Calgary

What came near being a fatal accident occurred to N. J. Lord Wednesday p.m. at 5:15. Mr. Lord had gone to Calgary in the Larsen Implements six wheeler truck which was delivering a load of hogs to the stock yards for R. G. Bell who was riding in the cab with Lawrence Larsen as driver. On the return trip Mr. Larsen picked up a large load of oil at the British American Oil Co. Ltd. and started for Arrowood. Mr. Lord was riding on top of the load of oil drums and in passing under the railroad bridge near the Elbow River, he struck his head against the bridge and was rendered unconscious. The truck was halted and after seeing what had happened, Mr. Larsen phoned for the ambulance and Mr. Lord was rushed to the Holy Cross Hospital for an examination by Dr. Ingraham and an ex-ray taken revealed no broken bones. A severe cut across the nose necessitated several stitches. After the wounds were dressed Mr. Lord rested quite easily and is expected to return home to-day. Constable Roger of the A. P. P. is investigating the misfortune and it is hoped that nothing serious will develop.

P.T.A. Will Hold Dance March 4th

The Trustees of the Arrowwood School District are supporting a worthy cause in permitting the P.T.A. to give a dance in the consolidated school on Friday, March 4th, for the purpose of raising funds to defray the expenses in serving hot lunches at the school. Special music is being arranged. Admission will be 35c.

POINTS ON THE ROarin' GAME

A Little Enlightenment and Standing of Individual Members of a Rink

In most cities and towns throughout Canada, and especially on the prairie provinces, curling is one of the popular pastimes, and perhaps a little enlightenment on the game and the standing of individual members of a rink would be quite in order.

The Game—Curling is very simple. All you have to do is to shoot a rock on the tee, then guard it so that the other fellow cannot get at it. If he succeeds in knocking your rock out he's just plumb lucky. The skip who gets most counters wins the end—unless the opposing skip slips in a bagatelle shot. This should be a jail offense, but the good skip merely trots down the ice and whistles or smiles, and then proceeds to build an other end.

The lead—is a person who throws the first pair of rocks; someone has to throw them to

(Continued on page 3)

The Eleventh annual Eastern International Dog Sled Derby—crowning event of the 1932 Winter Sport season—is scheduled for February 22-24. For those three days, all eyes turn to Quebec City, where each day the fight between the best dog teams in America over a course of 40-odd miles a day is staged. Emil St-Godard, Leonhard Seppala, hero of the rush with diphtheria serum to Nome a few years back, are among the contenders, of whom last year there were eleven and this year there will likely be even more. In all, the race covers a distance of 128 miles and the finish is in Quebec itself through crowds of thousands of fans, lining the streets and cheering on the victor.

Handsome cash prizes are awarded, but this year interest is

much above the usual. St-Godard

who has won the race four times

in the last five years, has two legs

on the Speed Cup and another win

this year will give it to him per-

manently. Seppala has two legs on the Gold Cup for the best conditioned dog and stands to win it per-

manently this year. Prizes total \$2,150

with a first prize of \$800; second prize,

\$600; third prize, \$300; then \$200, \$100,

\$75, \$50 and \$25 in

that order. In addition there is the

Gold Cup for the best conditioned

dog and the Speed Cup awarded

to the team making the fastest

time for a lap during the three

days of racing.

The event winds up with the

Dog Derby Costume Ball held

at the Chateau Frontenac, the

Canadian Pacific's great hotel, on Wednesday, February 24 at which prizes and cups are awarded to the winners.

The picture shows: Upper left, typical husky, and right Chateau Frontenac, Quebec. Below, centre, last lap of the race and lower right Emil St-Godard and his lead dog, Toby.

NORMAN G. CARY,
Editor and Publisher.**Moments**

The other day we attended the opening ceremony of the local flour mill. There were the bags of flour on display, samples of the grade of work done there. And yet, there was something new and something really exciting when the mill was declared officially opened and the switch thrown in.

It carried one back to the early days of machinery, particularly during the beginning of the industrial revolution in Great Britain. There is always a thrill when we start anything for the first time. But in those days when power was new and when gangs of handworkers broke the new fangled mechanisms is still more exciting. And we cannot help feeling that such another revolution lies in the immediate future. It will not mean much of a change in the process of production; but the impact upon present social organizations will be equally strong and the social changes quite as revolutionary.

Again it brought home the fact that life is largely made up of moments and it is in these moments rather than in the number of years that life, great life consists. We watched the building going up from the basement to the shingles. All the way, every nail driven and every other piece of work was performed with one purpose and looking to one moment of time when wheat might be turned into flour. So those moments hold us all. The student works year in and year out and the result is symbolized in that moment when he is hooded. Our farmer folk work year after year dreaming many dreams about the day when the new buildings will be a fact and that moment is marked by the "house warming" or other suitable ceremony and is there any life or any occupation so drab and monotonous that it does not have these moments? As the lens gather together the sun's rays and focuses them at one point, so life accumulates our efforts and centres them on a moment. Blessed is the life that has many of them.

UNUS SOLUS

I ENVY those men and women who know how to keep their creeds intact and unchanged throughout the entire journey of life. Their path is peace and their hope is sure. There are millions, however, who cannot rest until they can make their creed fit the facts of life, or the facts of life fit their creed. I am such a one.—Sir Arthur Keith.

When anyone steals your umbrella, it's a sure sign of rain.

Health Service OF THE Canadian Medical Association

Edited by
GRANT FLEMING, M.D. — ASSOCIATE SECRETARY**Begin Early**

It is necessary to make an early start if the teeth are to last a life-time and if pain, discomfort and ill effects of dental infections are to be avoided. The crowns of the temporary teeth are practically formed when the child is born. The quality of the teeth depends chiefly upon diet, so the diet of the mother during pregnancy and while she is nursing her baby determines what kind of teeth her baby will have for his first set.

The teeth are hard, bone-like structures whose crown or grinding surface is covered by enamel. Under the enamel, and forming the body of the tooth, we find dentine, a substance which is softer than the enamel and which readily decays. In the centre of the dentine is the pulp, a canal containing the arteries, veins and nerves which nourish the teeth and keep them alive.

The years of growth are the most important period of life. During these years, the body is served chiefly by temporary teeth, which are thus of great importance and should never be neglected. Temporary teeth are a necessary part of the child's digestive system; they are used to chew food and mix it with saliva.

Neglect of the temporary teeth causes discomfort and pain. The first teeth should be allowed to remain in the mouth until nature removes them by natural process, because not only are they used for chewing but they also hold the space required for permanent teeth. Premature removal of the temporary teeth means crowded, irregular permanent teeth.

Decayed temporary teeth are very apt to injure the permanent teeth which replace them. If they are infected, they may poison and so injure

the body. The child who has painful teeth cannot chew his food properly and, as a result he will suffer in his nutrition.

The first permanent teeth—four in number—appear about the sixth year and are known as the six-year molars. They should not be confused with the temporary teeth and must be given special care, because if they are lost, they are lost forever. These teeth hold the other teeth in position while the temporary are being replaced by the permanent. The loss of a six-year molar leads to irregularity of the teeth in that quarter of the jaw where the loss occurs.

The foundation for strong, healthy teeth is a proper diet, a diet which provides the material out of which such teeth can be built. Milk, whole-grain cereals, green vegetables and fruit, used regularly, will do this. Sunshine in summer and cod liver in winter furnish the vitamin which is needed for building healthy bones and teeth.

The gums and teeth need exercise as much as do other parts of the body. Crusts and fibrous vegetables supply the exercise required.

The teeth should be kept clean by regular brushing, night and morning. Regular visits to the dentist will permit of the early detection of small decayed spots which, if cared for immediately, will prevent any serious damage.

Begin early, and help your child to keep his teeth throughout life.

It ain't the trees that block the trail,

It ain't the ash or pine:

For if you fall, or if you fail,

It was some pesky vine

That tripped you up, and threw

you down,

That caught you unawares;

The big things you can walk

around,

But watch the way for snares.

Testing Laboratories Prove Superiority of The Simplex Method

The Simplex Piston Ring Co. is not content to accept merely the finding of thousands of motorists nor to rely solely on the results obtained by over fifty thousand expert repair men from the use of The Simplex Method of motor conditioning. While such reports are very flattering and say that Simplex save oil, reduce wall wear, increase speed, stop piston slap, increase compression etc., it is necessary for us to know just exactly how much oil they save; how much they reduce wall wear; how much they increase speed, etc.

For such tests and comparisons this company has set up and operates one of the most complete and up-to-date testing laboratories to be found in the automotive field.

Prevention of Fire

Matches should always be of the safety type and always blown out, never shaken, and never thrown in the vicinity of inflammable goods.

Be careful that the wind does not blow some light curtain over a candle or gas burner.

Should a pan of fat catch fire pour on sand, flour or anything that will smother the flame, but never water. As a general rule it is better to suffocate a flame, rather than throw on water.

Everybody knows he ought to be skipping the rink. The chief accomplishment of a third man is to be able to convey the impression that he knew darn well the skip played the wrong shot and when he missed and if he makes it, he (the third) was the brainy boy who figured it out.

The Skip.—The ideal curler who gets up the rink, but does none of the sweeping. He merely holds the broom and his temper, while the rest of the rink miss the one and strain the other. He must take out four rocks in one shot and draw to the button with the next and generally make himself useful, knowing that if he wins he's a hero, and if he loses—well, it's just too bad.

Then there is the fifth curler, the one who plays the game behind the glass. He draws wicks in, throws a runner, and finally wins the game. Yep, curling is a great game, and may it long continue to encourage good sport and create warm friendships. — Brandon Sun.

POINTS ON THE ROARIN' GAME

(Continued from page 1)

get the game started. All curlers have served apprenticeship as leads. He must see that all rocks are clean before the game and keep the other players in cigarettes. It does not matter whether he gets any shots or not, for he will be blamed if the game is lost anyway.

The Second—He must do 75 per cent of the sweeping, and keep the third man in matches. He corrects the lead's mistakes by trying for and getting what the lead didn't. If he sails clean through the house—well it doesn't matter, he's only the second. The only time the skip or third condescends to speak to the second is to sweep hard or pass his cigarettes or matches. His is a tough life, too.

The Third—He of course, should be skip, but he allows the other fellow to think he is boss. Assuming an air of superiority over leads and seconds he holds the broom for the skip, and when he misses—oh, boy!

The Masquerade Dance on February 12th turned out to be a great success. The costumes were numerous and exceptionally fine. Among those who did not get a prize were many worthy of being honorably mentioned.

The prize winners were as follows:

Gent's first—D. A. Dunsmore.
Gent's second—Dave Brown.
Ladies' first—Mrs. A. Soli.

Ladies' second—Miss Frances McBride.

The hall was over crowded and everyone made good use of their time. Supporters were present from Gleichen, Arrowwood, Mossleigh, Queenstown,

Vulcan, and various other points and though there was such a crowd it is hoped that all were satisfied.

It may seem to some that the dance quit rather early, and to explain this it may be said that it is the policy of the management to start on time and stop on time. Musicians who are engaged to play for the dances are not "machines" and in order to be justified in asking them to play for, say one hour extension, it would be necessary to take up a collection on their behalf, and if the dancers consider it worth while, then it is their place to submit their attitude to the floor manager who will give the matter of time extension his immediate attention.

The management extend to all who assisted in any way, their sincere appreciation.

Messrs. J. W. McRae and M. T. Edwards discharged the duties of M.C.'s for the evening.

Miss Dale Graham was a visitor with her Uncle and Aunt, Mr. and Mrs. J. W. McRae, over the week-end. Miss E. Watt of Vulcan is also their guest.

It is said, "blessed is he who expecteth nothing for he shall receive abundantly." This is particularly true when you're out with your crew and that never failing good Samaritan, Miss Mager, comes along with a kettle full of tea and a sack full of cake to refresh a hungry bunch of hard workers. Who wouldn't be "her" friend?

The biggest moose of the 1931 season in New Brunswick, with an antler spread of 66 inches, fell to the gun of Andrew Porter, Philadelphia sportsman. There had been three moose shot this year in New Brunswick, prior to this trophy, with spreads of 54 inches.

Happenings in and Around Arrowwood

School Concert Friday night at the school.

The P.T.A. are sponsoring a dance to be held in the school on Friday, March 4th.

Mrs. C. G. Taylor was hostess to three tables of bridge on Tuesday afternoon.

Strictly fresh eggs always on hand at Frank Johnston's at 15 cents per dozen.

Clothes cleaned and pressed. Reasonable prices. Mrs. C. Hettler Arrowwood.

"Clubbing Our Husbands" will be presented by the Ladies Guild on March 18th.

Mr. J. M. Weins and daughter, Loretta, were visitors in Calgary on Tuesday and Wednesday.

The regular meeting of the Junior U.F.A. will be held on Tuesday, Feb. 23rd at the home of Mrs. M. H. Ward. Social.

Miss V. Ingraham returned to her home on Wednesday evening after spending a few days in Gleichen.

The Ladies Aid met on Friday, February 12th, at Mrs. Raymond Brubaker's Friday being World's Prayer Day, a special program, prepared by Mrs. Burger, was given. There were sixteen members present.

The next meeting will be held at Mrs. Parnell's on February 25th.

Arrowwood Juniors will play hockey with Gleichen Juniors this afternoon.

Arrowwood visitors to the City yesterday report that a blizzard was raging near Calgary.

We are pleased to report that Mr. C. Culp, who has been confined to his bed, is improving.

E. Brubaker lost three sheep last week supposed to be killed by dogs.

Mr. and Mrs. L. H. Irwin accompanied by Mr. and Mrs. C. Miller were visitors in Calgary on Monday.

L. H. Irwin had the misfortune of losing two valuable horses by getting into a wheat field. A third one is not expected to live.

The Junior Class of the Brethren Sunday School was entertained at the home of Mr. and Mrs. R. L. Culp on Sunday February, 14th, celebrating Merlin Burris' birthday. Eleven members of the class were present. Also Mr. and Mrs. Burris and family.

U.F.W.A. Meets at Home of Mrs. B. W. Ingraham

The regular meeting of the U. F. W. A. was held at the home of Mrs. B. W. Ingraham on Wednesday afternoon Feb. 17th in the form of a St. Valentine's meeting.

Seventeen members and four visitors were present. Roll call was answered by My First Sweetheart. Mrs. E. Norman the President, being absent. Mrs. M. Leonard, Vice President presided. Plans were made for the Leap Year Party to be held on Monday evening, Feb. 29th, at the home of Mr. and Mrs. M. H. Ward.

Mrs. J. M. Dewitt gave a most interesting paper on the Origin of St. Valentine's Day.

A most delicious lunch was served by the hostess with Mrs. D. Richards and Mrs. M. McInally assisting.

The next meeting will be at the home of Mrs. D. Richards on Wednesday afternoon March 9th.

The WAGIN' TUNG

Vol. 1, No. 27 Arrowwood, Feb. 18, 1932 Items for That

"Arrowwood Should"

Why not adopt a slogan for our fair city and have it attached to licence plates on all automobiles in the Arrowwood district. We would like to receive suggestions from everyone who makes our city their trading point. Ours is "Arrowwood should". What is yours? Again 'lets go'.

This week's "Wagin' Tung" reminds us that another week has slipped by and only a few have made any mention of their requirements in the line of repairs.

If it is a seed drill you are needing to sow your 1932 crop, we have some very attractive offers in the famous VanBrunt Seeder.

In accordance with the present times and conditions, we can quote you this drill at a substantial reduction. This is your opportunity to get a reliable machine for your work at a new and lower price.

①

If it is grain cleaners, smut treating machines, grass seeder attachments, fertilizer attachments or any farm implement that you will need we will be too glad to serve you.

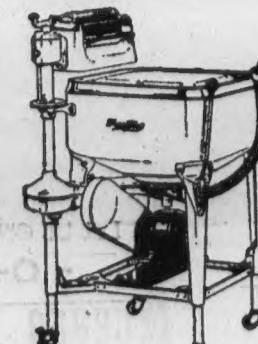

②

A professor was asked to give his definition of woman. After clearing his throat he began in his leisurely way, "Woman is, generally speaking,"

"Stop right there profes-

sor interrupted a masculine listener. "If you talked a thousand years you'd never get any nearer than that."

Stop right here if you are thinking about a new washing machine

The Maytag have recently announced two new models in connection with their old standby, the square cast aluminum tub; all at new and lower prices. It will pay you to see the new Maytags before buying.
